Aries 33

[Return to TOC](#)

The Aries Traditional direct-vent combines beauty, efficiency and value. A clean faced heat-circulating design with beautiful flame, glowing embers and oak logs. Top and rear dedicated flue models, a new compact horizontal termination, and a choice of millivolt or electronic controls. All models are equipped with a standard barrier that meets 2015 requirements.

Agency Listing: Built to ANSI Z21.88 and CSA 2.33 standards. PFS report F13-94
Uses 4.5" / 7.5" Secure Vent™ Rigid and Secure Flex™ Direct-Vent Components

<u>Material #</u>	<u>Model #</u>	<u>Description</u>	<u>Fuel</u>	<u>BTU</u>	<u>MSRP</u>

Sentinel 36

The Sentinel direct-vent unit offers a clean design. There are no metal grills; just realistic flames, glowing embers and a great log stack. Refractory panels are available in either classicstacked or herringbone pattern. The Sentinel is equipped with electronic ignition which functions with a wall switch or remote control. All units are equipped with a standard barrier that meets 2015 requirements.

Sentinel 42

The Sentinel direct-vent unit offers a clean design which shows you everything you want and nothing you don't. No metal grills; just realistic flames, glowing embers and a great log stack. The industry's finest traditional firebrick is available in either classic herringbone or stacked brick. Equipped with a fully electronic ignition and includes remote control. The Sentinel's operating system is equipped with a fully electronic ignition which functions with a wall switch or remote control which is included with every unit. All units are equipped with a standard barrier that meets 2015 requirements.

Agency Listing - ANSI Z21.50 / CSA 2.22 Listed in PFS (F09-099)

Devonshire 36

The Devonshire is a low to the floor, clean faced fireplace with unmatched features. The low profile ember burner features a mature random fire log stack with plenty of flame and strong deep glow. The natural hand detailed refractory panels are available in ivory, red and tan for both stacked brick and herringbone patterns. It utilizes a fully electronic ignition system with 50% turn down capacity. It has the option of operating by wall switch or included remote control, and comes standard with a factory installed blower. Includes ceramic glass. All units are equipped with a standard barrier that meets 2015 requirements.

Eros 35ST

Virtually anywhere you can imagine a fireplace, the Eros 35ST see-through gas fireplace fits right in without taking up additional floor space. Its compact see-through design is the smallest footprint in the industry, yet it offers the largest viewing area and flame presentation for its size. The deluxe log set features fine, natural details that look real with the fire on or off. All units are equipped with a standard barrier that meets 2015 requirements.

Agency Listing: Built to ANSI Z21.88 and CSA 2.33 standards. PFS (F14-165)

Montebello ST

[Return to TOC](#)

The Montebello ST Direct-Vent Fireplace offers the beauty and performance to make it a stunning centerpiece for any home. Premium, split-oak log set and beautiful glowing embers provide fine detailing that replicates the natural look of a real wood fire. The focal point of the Montebello ST is its exceptionally tall, dancing flame seen through an expansive ceramic-glass opening for unmatched clarity and radiance. All units are equipped with a standard barrier that meets 2015 requirements.

Agency Listing: Built to ANSI Z21.88 and CSA 2.33 standards. Listed by PFS (14-107)
Uses 8" / 11" Secure Vent™ Rigid Direct-Vent Components
Power Vent Unit Uses 4.5" / 7.5" Secure Vent™ Rigid Direct-Vent Components

Plantation 48

The Plantation features revolutionary Mosaic Masonry™ system available in ivory "half-split" firebrick in a custom herringbone pattern for a naturally rich look. Even more impressive, the hearth floor is only 1-1/2" above the ground. (* Installation on combustible subfloor requires Hearth Spacer Model HS48) These fully insulated models come complete with heavy duty log grate and rugged forged andiron. Barometric dampers are factory installed on both sides standard (Use of two AK4 fresh air kits recommended).*
