HS25N	NAT	Power Pile Ignition	25,000	High Intensity Radiant Overhead Workshop, Thermostat Heater	29.75" x 12.25" x 7"

ENERCO HIGH INTENSITY INFRARED OVERHEAD HEATERS

Infrared Heaters direct line of site radiant heat to floor-level objects, which in turn, heat surrounding air to the desired temperature. High Intensity Heaters are ideal for use in drafty or windy conditions like loading docks, auto mechanic bays.

- **MADE IN U.S.A.**
- CSA Certified
- Durable, Rugged Construction, Non-Corrosive Materials used throughout Heater Construction
- Instant heat, Quiet, Clean, Odor-Free Operation
- Maintenance Free - No Moving Parts to Service
- No Direct Venting Required
- Multiple BTU's Outputs (conversion orifices included)
- Spark Ignition "SP" Models ship w/ 120V/24VAC/40VA Transformer
- Power Pile Ignition "PP" Models ship w/ Thermostat and nor Electricity or Direct Venting are required for operation

Enerco Heaters

ENERCO PORTABLE BUDDY PROPANE HEATER

North America's Most Popular Portable Propane Heaters! These patented radiant Liquid Propane heaters are commonly used for Ice Fishing, Hunting, Camping, Workshops and Outdoors Sports. They connect directly to 1 lb. or 20 lb. cylinders (with hose adapter) and are the perfect solution for heating enclosed spaces from tents to cabins. The expertly engineered size to BTU ratio is augmented with a fold-down handle to give these heaters maximum output to a remote gas supply with the purchase of a hose and filter. To light the unit, simply rotate the knob to pilot and push. Then the integrated Piezo sparking mechanism will take care of the rest. With the Oxygen Depletion Sensor (ODS) and accidental tip-over safety shut-off, you can be sure that you will enjoy years of comfortable indoor safe heat.
