

Detroit Radiant Patio Heaters

DETROIT RADIANT DESIGNER PATIO HEATERS

Designed to add warmth to outdoor patio applications, the DSCS (single stage) and DSCD (two stage) Series patio heaters are the perfect solution to stylishly extend the outdoor season to many commercial and residential applications. The DSC Series heaters easily mount out of the way and without the hassle of refilling costly propane tanks. Specifically designed for comfort, reliability, and ease of installation, the DSCS and DSCS Series are sure to deliver the desired amount of warmth for dining, entertainment, or work areas.

Detroit Radiant Patio Heaters

DSS SERIES MEDIUM-WAVE ELECTRIC INFRARED PATIO HEATER

Outdoor approved DSS Series electric heaters produce medium-wave, instant heat with the use of revolutionary carbon lamps encased in an IP55 rated, compact, slim, black enclosure. This heater offers a remote control with timer functionality and four power settings (can also be ordered without remote), and one remote can control multiple heaters. Operational benefits include a highly efficient energy transfer, even heat distribution, and intense heat output.
