

RE-VERBER-RAY TRAINING BY DETROIT RADIANT PRODUCTS CO.

Review the different overhead gas radiant heating options Detroit Radiant has to offer. Proper installation for efficiency and safety is key. We will also review the service and maintenance of these units for reliability. Troubleshooting will be covered for those times when they need a little bit more attention.

- May 6th – 8:00am – 12:00pm – [Lee, MA](#) (No lunch provided)

UNDERGROUND TANK INSTALLATIONS

This class is designed to provide information on underground tank installations, focusing on best practices, cathodic protection, dielectric fittings, and gas lines. Testing of the cathodic protection and retrofitting protection should the tanks fail the testing. We will also go into underground gas lines including plastic, copper, black iron, and CSST including precautions and protections. Gas line sizing and tank vaporization.

- May 7th – 8:00am – 12:00pm – [Lee, MA](#) (No lunch provided)

PROPANE 101

This course will teach you basic propane knowledge from characteristics of propane to bulk plants. High level topics to include combustion, tank installations and appliances. What does water column mean? Learn about this and much more. Don't forget to bring your questions. CSRs & Sales team welcome!

- June 3rd – 8:00am – 4:00pm – [Flint, MI](#) (Lunch provided)

REGULATOR BASICS / LINE SIZING

This combination class will discuss regulator basics in the morning, and line sizing in the afternoon. Regulator operations, sizing, and troubleshooting will be discussed. We will touch on commercial regulators and OPP. Piping materials and different line sizing methods will be covered. We will also do some line sizing examples in class

- June 4th – 8:00am – 4:30pm – [Flint, MI](#) (Lunch provided)

ELECTRIC FIREPLACES / WARMING TRENDS FACTORY TRAINING

This combination class will discuss electric fireplaces in the morning and Warming Trends in the afternoon. We will review the fireplaces that Ray Murray distributes and the different technologies. We will discuss a broad overview of installation practices and service. The Warming Trends portion of the class will review outdoor firepits and fireplaces. We will go into detail on ignition systems and which are best for the installation. Different kits and burner types will also be discussed.

- June 11th – 8:00am – 4:00pm – [Bonita Springs, FL](#) (Lunch provided)

RANSOME FACTORY TRAINING

This course will review direct fired vaporizers and electric vaporizers. Proper sizing and installation will be discussed. Vaporizers require maintenance, we will go into detail on how to properly maintain your vaporizer. If you do not choose to do maintenance, we will then also discuss troubleshooting details to get your vaporizer back up and running.
